GLOBAL EQUITY STRATEGY

INSTITUTIONAL STRATEGY FACT SHEET AS AT 28 FEBRUARY 2025

CORONATION
TRUST IS EARNED™

LONG TERM OBJECTIVE

The Coronation Global Equity Strategy provides access to the best investment opportunities across global markets through capital growth of underlying stocks selected. It is a flexible portfolio invested predominantly in equities listed on developed market exchanges, but will have exposure to emerging market listed companies as well. The Strategy may hold cash and interest bearing assets where appropriate. The objective is to outperform the MSCI All Country World Index over a 5-year period.

INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house, focused on bottom-up stock picking. Our aim is to identify mispriced assets trading at discounts to their long-term business value (fair value) through extensive proprietary research. In calculating fair values, through our fundamental research, we focus on through-the-cycle normalised earnings and/or free cash flows using a long-term time horizon. The Portfolio is constructed on a clean-slate basis based on the relative risk-adjusted upside to fair value of each underlying security. The Portfolio is constructed with no reference to a benchmark. We do not equate risk with tracking error, or divergence from a benchmark, but rather with a permanent loss of capital.
