

LONG TERM OBJECTIVE

The Coronation Global Managed Strategy provides investors with access to the best investment ideas from around the world, with the aim of maximising long-term capital growth. It blends individual asset selection to reflect Coronation's view across asset classes, regions and currencies. The intent is to remain fully invested in foreign assets. The Strategy will hold its exposure to foreign assets in a variety of currencies, primarily the US dollar, British pound, euro and Japanese yen. The Strategy's objective is to outperform the global markets as measured by an equity-biased composite benchmark over a 5-year period.

INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house. Our aim is to identify mispriced assets trading at discounts to their long-term business value (fair value) through extensive proprietary research. In calculating fair values, through our fundamental research, we focus on through-the-cycle normalised earnings and/or free cash flows using a long-term time horizon. The Portfolio is constructed on a cleanslate basis based on the relative risk-adjusted upside to fair value of each underlying security. The Portfolio is constructed with no reference to a benchmark. We do not equate risk with tracking error, or divergence from a benchmark, but rather with a permanent loss of capital.
