

FEES AND EFFECTIVE ANNUAL COST (AS AT 31 MARCH 2024)

The Effective Annual Cost (EAC) is a measure which allows you to compare the estimated impact of charges on investment returns when you invest in different financial products. It is expressed as an annualised percentage. The EAC is made up of four components, which are added together, as shown in the table. The figures only show the estimated impact of immediate and future charges, and do not include the impact of any charges that have already been incurred. The effect of some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment at the end of the relevant periods shown in the table.

Balanced Plus Fund

An annual fee of 1.25% (excl. VAT) is payable.

Fund expenses that are incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs. We do not charge fees to access or withdraw from the fund.
